

February 2021

Platform Spotlight

Vincent Pugliese

Senior Vice President &
General Manager, Platform,
Finastra

Welcome to the FusionFabric.cloud spotlight, your place to keep up with all our essential platform updates across technology, events, research and new launches.

Speaking of new launches, have you seen the news? We recently introduced a significant new capability – Fusion Data Cloud – designed to make the information you need more accessible, more valuable and more secure.

The Finastra Hack to the Future Hackathon was a huge success! With over 4,600 participants from 100+ countries this was one of the largest, most impactful fintech hackathons ever.

The Finastra Universe Event is fast approaching, and I am delighted to share a sneak peek into the financial services executive event of the year.

2020 was a year of change, and 2021 will be no different. We have very exciting and ambitious plans for the year ahead, and I am eager to hear your ideas.

Get in touch with FusionFabric.cloud@finastra.com if you would like to get involved, either as a developer or a financial institution and of course keep your eye out on www.FusionFabric.cloud to keep up to date with all our latest news, updates and events.

I hope you enjoy this month's edition of the spotlight and are as excited as I am about a more open, innovative and connected year ahead.

Introducing Fusion Data Cloud

The next generation data platform

Accessing, analyzing and leveraging financial data just got easier. We're proud to be launching [Fusion Data Cloud](#), the simplest way to drive value from financial data.

This suite of solutions is designed to help financial institutions and fintechs improve customer engagement, grow revenue, digitize processes, and manage risk.

Fusion Data Cloud provides:

- A data ecosystem to connect banks and leading fintechs to accelerate the creation of new solutions
- Actionable insights drive real-time decision-making
- Connected experiences to visualize key analytics and interaction across channels.

Turning Finance Digital: 7 keys to winning with data

Data is now key to building competitive advantage in financial services. The most successful institutions will be those that use it to understand their clients, counterparties, and their internal organization.

However, this future doesn't just have to be for the largest businesses with the most resources. Our new guide examines how platform companies with open APIs and shared data standards can create an innovation ecosystem that benefits everyone.

Get on the winning path and download our new e-book to discover the seven steps to future-proof your organization with data.

See the seven keys to winning with data in practice with a panel of fintechs and financial institutions on this webinar.

Discover:

- How to build a winning data strategy
- How best to structure data to maximize its potential
- The tools to unlock the full potential of digital innovation.

Watch our on-demand webinar today to see how you can put your business in the strongest position for the future with digital technology.

Our latest reports

Looking to the future in 2021

Now more than ever, the financial industry is evolving rapidly, driven by technology, changing consumer and commercial trends, and increased competition in digital services.

In a fast-moving environment it's essential to stay informed and look to the future.

Our research teams are here to keep you informed of the latest developments in the areas that matter most to you. Our latest reports examine:

- How technology is enabling smoother collaboration between banks and fintechs.
- Why open banking is essential for the future of payments.
- How APAC institutions are hyperscaling their transformation.
- Why the race to corporate APIs is shaping the future of competition in banking.

Corporate banking APIs: Opening new horizons

January 13, 2021 | White paper

In the future, open APIs could be the difference between success and irrelevance. So what's holding banks back? Find out how you can win the race.

Powering the future of payments with Open Banking

January 7, 2021 | White paper

Out of date payment systems risk harming customer experience and data quality. Find out how you can use open banking to drive end-to-end payment value.

2021 and beyond: A new platform to bank on

December 7, 2020 | White paper

The future of banking will be fuelled by innovation instead of regulation. Find out how leading APAC institutions are taking control and driving change.

Frictionless collaboration speeds up innovation in financial services

October 13, 2020 | White paper

In an evolving market, speed matters more than ever. Discover how banks and credit unions can accelerate the 'go to market' journey and stay ahead.

FusionStore

Finastra's FusionStore is bringing new fintech app innovations to Finastra's 9,000+ financial institution clients around the world.

New apps launched

Consumer Banking

[Dinero Cash – Nextgen mWallet](#)

Dinero Cash is the next generation of mobile money solution for Banks. Fully integrated with the core banking system, a bank can now easily deploy a mobile wallet ecosystem integrating third party players into the platform, facilitating the lives of millions of unbanked and enhancing banked users with a mobile wallet companion.

Pre-integrated with Fusion Essence and Fusion Equation

[Finbot for Consumer Banking](#)

Finbot is a conversational AI chatbot and voicebot for Consumer banking, powered by Floatbot.ai. Floatbot.ai is a SaaS-based conversational AI platform that helps banks and fintechs to automate customer support, increase customer experience and digital sales. Its DIY "No Code" platform makes it possible to build hybrid bots using advance workflow-builder and conversational AI tools.

Pre-integrated with Fusion Digital Channels, Fusion Essence and Fusion Equation

[Fusion Dixibot powered by kore.ai](#)

Fusion Dixibot is a conversational AI banking solution for banks to act as a self-service virtual assistant. It reduces the cost for banks by moving customers away from channels like in-branch and call centers.

Pre-integrated with Fusion Equation

[BankBI](#)

BankBI is a cloud based out of the box financial performance management application delivered via a software as a service subscription model. Available on any device, anytime and anywhere, BankBI offers senior management in banks, credit unions and the microfinance industry the chance to measure, monitor and manage their business in real time using industry standard ratios and dashboards.

Pre-integrated with Fusion Phoenix

[RoboSwitch](#)

RoboSwitch is a digital connection between the ClickSwitch product and Fusion Digital Banking. This connection enables Financial Institutions that are customers of ClickSwitch to provide the ClickSwitch product inside of their Fusion Digital Banking experience. Through ClickSwitch users can move their direct deposit to your financial institution in minutes.

Pre-integrated with Fusion Digital Banking

[Appzillon Corporate Onboarding](#)

The Appzillon Corporate Onboarding application supports banks with the onboarding of their corporate customers, as well as with product onboarding to Finastra's corporate banking solutions. The app is a fully digitalized solution supporting self-onboarding by customers and assisted onboarding by the bank staff.

**Pre-integrated with
Fusion Corporate Channels**

[SME Banking Insights](#)

A fully cloud-based app, SME Banking Insights gives SMEs remote access to real-time information on their cash positions, presented in the form of convenient dashboards. These summarize the business's cash positions, account statements, currency-wise balances and liquidity trends.

**Pre-integrated with Fusion
Corporate Channels**

[Payment Fraud Prevention](#)

NetGuardians' AI platform detects fraudulent transactions in real-time, reduces the number of false positives by 83%, fraud management time by 93%, discovers new fraud types, and reduces fraud losses.

**Pre-integrated with Fusion
Cash Management**

Lending

[AIO – Verified Financial Identity](#)

AIO is driving trust between businesses, enabling customers to establish and own their verified financial identity, and to share it securely with financial institutions. Customer screening and onboarding processes employed by financial institutions are no longer fit for purpose. Relying on traditional, labor-intensive practices to establish a customers' financial identity, often through unverified printed documents is time consuming and prone to fraud.

**Pre-integrated with
Fusion CreditQuest**

Toniqs

Toniqs is a modulated end-to-end solution for legacy banks to have Neo Bank facilities. Offering disruptive innovative Neo Bank Infrastructure for B2B and B2C. Toniqs is the only solution that facilitates banks to deploy, convert and scale their digital services to B2B & B2C.

Pre-integrated with Fusion
Global PAYplus

Payment Fraud Prevention

NetGuardians' AI platform detects fraudulent transactions in real-time, reduces the number of false positives by 83%, fraud management time by 93%, discovers new fraud types, and reduces fraud losses.

Pre-integrated with Fusion
Global PAYplus

IN-D PayGen

IN-D PayGen application leverages IN-D.AI's AI engine that understands documents and images, extracts data and synthesize it into actionable paymeny information.

Pre-integrated with Fusion
Global PAYplus

Treasury and Capital Markets

Detech Optimizer

Detech Optimizer is a sophisticated next-generation decision-support tool for strategic balance sheet and risk management in financial institutions. The tool optimizes assets, liabilities and capital for long-term strategies and prepares decision-makers for numerous future scenarios simultaneously.

Pre-integrated with Fusion Risk

SCR Optimizer

With SCR Optimizer, you can define, compare and apply optimization strategies on insurance portfolios in a Solvency II regulatory context. Portfolio managers can control the SCR of the portfolios at any time.

Pre-integrated with Fusion Invest

Connecting to an open app ecosystem

Create vs collaborate: how to integrate apps in your digital service

Digital transformation is a challenge for institutions worldwide. When updating systems, some build their own solutions while others buy from established vendors. Find out how which is the right choice for you [here](#).

The power of a payments ecosystem

The world of payments solutions has expanded into a global ecosystem. Explore the options available and find how they can help your business in our new infographic.

5 digital trends driving the future of customer experiences in financial services

Customer experience isn't just about keeping users happy. It's a key driver of retention, growth and competitive advantage.

As account holders expect more from their financial institutions, providers will need to keep up. Luckily, Fintech apps could be the key to adapting.

Developer experience updates

What's new for app creators

Data Movement & Data Ingestion

We added Data Movement inside Application Wizard to show you how to consume and ingest data while working with datasets.

Ingest Data

Data Ingestion represents the process of feeding the data into the FusionFabric.cloud Data Lake, using Microsoft Azure storage technology.

Consume Data

Consuming data from Data Lake allows you to use datasets that are shared through Azure Data Share.

Design System Theme Editor

Customize components and apply your branding on apps built with the design system.

Filter by timeframe on Application Statistics page

It's easier to dig deeper now. On the Application Statistics page, you have the possibility to filter the data using specific timeframes.

Dataset Decryption deep dive

See more on how to use the new encrypted datasets.

A screenshot of a feedback submission form titled 'Submit your feedback'. It includes fields for a comment (with a character limit of 600), a rating for overall experience (5 stars), a recommendation question (radio buttons for Yes, Maybe, No), and a note about attaching a screen capture. There is also a camera icon for taking a photo.

Submit your feedback

On the Feedback form, you can now capture (and edit) a specific area of your screen and attach it to your feedback before submitting it.

New Platform Guides

Two new guides were added to the documentation offer, covering the commercial details of FusionFabric.cloud and the security checks and best practices applied to the platform.

Dark theme support for registered users

Improved documentation

Tutorials have been added to the Solution Overview pages for:

- Trade Execution on Exchange
- Regulatory Compliance Toolbox
- Payment Initiation
- Commercial Loan Origination

Hack to the Future

#HackingForGood

We hosted one of the largest, most impactful fintech hackathons ever with over 4,600 participants from 100+ countries.

This year, we were aiming to redefine finance for good with three main categories: hacking systemic inequalities, embracing technology-enabled change and hacking through COVID-19.

A big thank you to our 40+ sponsors and partners, and to the 100+ judges who helped us to select the 10 winners in our main prize categories including 'best environmental impact', 'best social impact', 'best user experience' and 'best app'.

Congratulations to the winning teams and all the participants (developers, data scientists, UX and business experts) who submitted over 230 projects.

Finastra Universe

Accelerating through change

Finastra Universe remains the global executive event focused on fintech and the future of financial services.

Watch our global keynote sessions to find out more about our journey to open, and don't miss our fireside chats and panel discussion with a range of renowned guest speakers from the likes of Societe Generale, Seattle Bank and Aite.

We will also launch our new platform white paper during the event and showcase a selection from our open APIs and apps.

You will discover how FusionFabric.cloud, our open platform for fintechs and bank developers could help you to foster innovation by building your own apps or by leveraging our curated fintech ecosystem.

For the first time this year, we will also host two dedicated streams of content tailored to our app producers.

Finastra Universe

The full experience, anytime, anywhere

Finastra Universe remains the global executive event focused on fintech and the future of financial services. Now in our sixth year, we are embracing the new normal and going virtual. We have taken all the very best of Finastra Universe and remixed it to deliver vision sessions, solutions deep-dives and networking. Make the most of your schedule and join us at your convenience.

Register today to secure your DAY ONE access.

March 2, 2021
