# Quarterly Platform Spotlight

## Vincent Pugliese

Chief Product Officer,  
Platform, Finastra

Welcome to our latest Platform Spotlight, bringing you all the news of our essential platform updates across technology, events and the latest launches.

As we all settle into new ways of working after the disruption of the last few years, we're looking forward to another busy quarter. We have many exciting new apps scheduled to launch over the coming months across all our business units, so be sure to visit our [FusionStore](#) app marketplace for the latest updates.

In the meantime, we're delighted to share our 2022 Fintech Predictions report, bringing you fresh insight from more than 50 industry experts. Focusing on four key topics driving financial services change, our report predicts some interesting future developments for ESG, embedded finance, decentralized finance and platformification. [Download it now.](#)

And for all you innovators out there, our latest hackathon – Hack to the Future 4 – is coming soon, and once again we want you to get involved. Building on the success of our previous hackathons, Hack to the Future 4 will focus on ESG, embedded finance and decentralized finance.

So, if you have ideas or concepts that could help facilitate change in these interesting, evolving business areas, we'd love you to join us. [Register now.](#)

Innovation really is key to our work at Finastra, and in his latest blog, Head of Product Management, Grégory Cobena, shares exciting news about the launch of a new batch of next-generation APIs that extends business functionality. [Read the blog](#) to find out more.

There are exciting times ahead as digital ways of working and finance continue to expand - and we'll continue to share the latest industry news and insights to keep you at the forefront of developments. We look forward to sharing more in our next issue.

# Hack To The Future 4

A fintech movement igniting a world of financial sustainability, inclusion, and empowerment

Building on the success of our previous hackathons – to redefine finance for good and build an unbiased fintech future, we continue to use our position in the market to inspire the fintech space to be open by default for everyone, as we strive for financial sustainability, inclusion and empowerment.

This year we aim to drive engagement beyond our global fintech ecosystem with three key themes that are inclusive and open to all:

ESG – Embedded Finance – Decentralized Finance

## Theme 1

### Sustainable & inclusive finance

- ✓ Financial inclusion & literacy
- ✓ Sustainable & green finance
- ✓ Diversity, equity & inclusion
- ✓ Circular economy & the UN SDGs

## Theme 2

### Embedded finance

- ✓ Everyone is a fintech
- ✓ Bringing financial services to other industries
- ✓ Banking as a service
- ✓ Invisible finance everywhere

## Theme 3

### Decentralized finance (DeFi)

- ✓ Securities tokens & CBDCs
- ✓ Blockchains, crypto & DeFi protocols
- ✓ NFT, metaverse & web3
- ✓ DAOs & governance tokens

## New apps launched

### [IDCheck.io](#)

By providing fully automated solutions based on artificial intelligence, ARIADNEXT offers companies and governments the opportunity to instantly build trusting relationships with their consumers and citizens. IDCheck.io enables them to meet regulatory challenges and anti-fraud requirements while focusing on customer experience and digital transformation.

Integrated with Fusion Equation & Fusion Essence

### [FlashSpread](#)

Spreading financials is a time consuming first step in a loan approval and review process. FlashSpread offers instant conversions of scanned business and personal tax returns into complex and comprehensive financial reports with little to no human interaction. This enables lenders to make error free, data-driven, credit decisions in real time.

Integrated with Fusion CreditQuest

### [Vector Risk XVA](#)

Risk analytics service providing industry standard portfolio XVA calculations, correctly taking into account netting/economic offset legal agreements, collateral and margining, within a full Monte Carlo framework, across all major asset classes and product types. The cloud-based risk analytics are based on industry leading vector code

Integrated with Fusion Summit

### [Liquid Crypto Quick Exchange](#)

Quick Exchange provides bank customers with access to over 150 cryptocurrencies, enabling them to buy and trade instantly in a simple, fast, and secure manner. Customers benefit from Liquid's highly competitive fee structure and the platform provides flexibility for traders, offering low minimum order requirements and the ability to lock trade rates for up to two minutes.
